Purpose

The Department of Community and Government Services (CGS) is pleased to present this report on the Government of Nunavut (GN)'s procurement and contracting activities for the 2006/07 fiscal year.

Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts reported by GN departments to CGS's Purchasing, Logistics and Contract Support section

It should be noted that contracts entered into by the GN Crown agencies and Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during the 2006/2007 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the applicable GN Policies and Procedures Manual.

Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and tables are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one-time initiatives. Users of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report. Readers should consider the many other reports and published program information made available by the GN.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the annual results. For instance, a significant level of capital projects in one year would likely reveal a high level of public tendering which is the typical approach when awarding some large major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in public tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs and services. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments.

Major capital projects typically follow a period of planning which includes architectural and engineering assessments prior to the period of intense construction activity starting. The following year would normally show a large reduction in contracting activity. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method. A year in which there is a decline in a significant portion of capital spending which, through its size and magnitude, awarded through a request for proposal process can influence the relative proportion or comparisons by percentage from year to year. Therefore the multi-year comparative information must be considered from a broader perspective and one should consider the overall influences prior making conclusions regarding the year to year comparisons.

It is worth noting that contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding health and welfare of Nunavummiut may warrant

GOVERNMENT OF NUNAVUT

Procurement Activity Report

special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where there is only one qualified vendor available or where a delay would be injurious to the public interest. Therefore in a year in which the level of capital spending is low, the proportion of non-competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contract Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

Appendix A sets of the Definition of Terms.

Appendix B entitled *Sole Source Listing* provides a listing of all Sole Source Contracts by value (> \$5,000) in ascending order.

Appendix C entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the Award Value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

The Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were no contracts awarded by Executive Council for the reporting period.

General Observations

The following is a brief synopsis of the statistical analysis for the fiscal year 2006/07.

The actual volume of contracts (number of contracts issued) is up by 7% from 2005/06.

The department with the largest volume of contracts is CGS followed by Health and Social Services (HSS).

Major Works construction represents the largest category (dollars spent) of all contracts.

Consulting Services and maintenance services represent the largest volume of individual contracts.

The most common method of contracting is through Public Tenders.

74% of the total value of all contracts is the result of some form of competitive bidding. This represents an increase of 12% from the fiscal year 2005/06 to 2006/07.

GOVERNMENT OF NUNAVUT

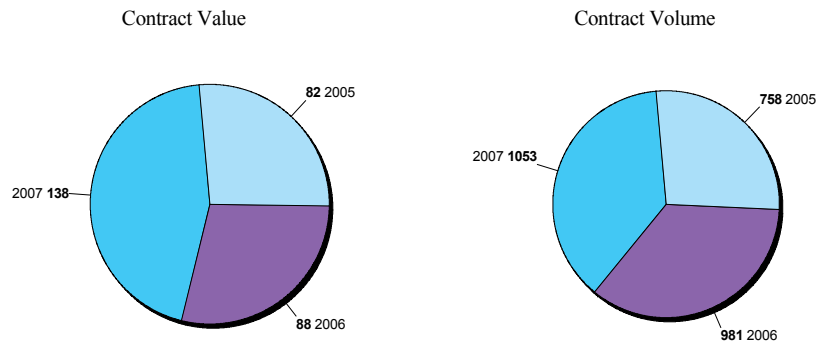

Procurement Activity Report

Summary

1. All Contracts (> \$5,000)

The chart below "Government of Nunavut Contracting Value & Volume" summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

Government of Nunavut Contracting Value & Volume 3 Year Comparison

The *Procurement Activity Report* has been produced for the past four fiscal years. The two charts above illustrate how the GN's contracting activities have changed over the past three years and is further supported by the details provided in the following table. In terms of contract value, the highest level of contracting activity occurred in 2006/07. Contracting activity dropped substantially in 2004/05 and shows a 7% increase in 2005/06. In terms of volume, the number of contracts issued in 2005/06 represents a 23% increase in actual contracts since the prior year.

The Volume of contracts issued in 2006/07 represents a 7% increase and the Value of contracts represents a 57% increase.

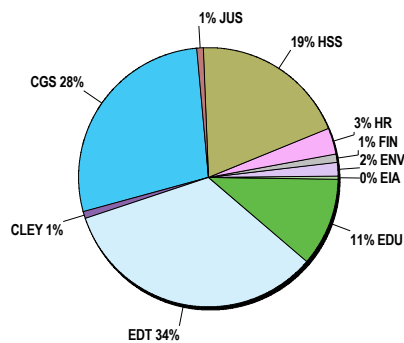

All Contracts (Thousands)

Type	2006/07	2005/06	2004/05
Number of Contracts	1,053	981	758
Total Value	\$ 138,020	\$ 88,438	\$ 82,321
Avg Contract Value	\$ 131	\$ 90	\$ 109

Contracts by Department 2006/07 - Value

The chart below "Government of Nunavut Department Distribution ~ Value" summarizes the distribution of contracts by department.

Government of Nunavut Department Distribution - Value 2006/07

The chart above shows the level of contract activities each department engaged in during the 2006/07 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure, health, education and emergency services engaged in higher levels of contract activities. Together, the Departments of Health and Social Services, Education and Community and Government Services represent 58% of the GN's approved annual spending and, in turn, represent 70% of the GN's contracting activities. Specialized goods and services are often needed in order to address the needs of Nunavummiut, fulfil departmental mandates and meet client service expectations and needs.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Total Contract Distribution by Department ~ Value (Thousands)

Department	2006/07		2005/06		2004/05	
Community and Government Services (CGS)	\$ 38,477	28 %	\$ 33,694	38 %	\$ 25,044	30 %

2. Contracting Types

The chart below "Government of Nunavut Contracting Value & Volume" summarizes the distribution of contracting method by value.

**Government of Nunavut
Contracting Types - Value
2006/07**

The GN's contracting activities by value increased by approximately \$50 million or 56% in 2006/07.

Contracting Types ~ Value (Thousands)

Type	2006/07		2005/06		2004/05	
Air Charter (AC)	\$ 1,916	1 %	\$ 1,275	1 %	\$ 1,165	1 %
Architectural/Engineering (AE)	3,697	3	7,664	9	731	1
Construction (CON)	67,055	49	14,871	17	47,415	57

Minor Construction or Maintenance Services (MC)	6,323	5	6,899	8	4,215	5
Purchase Orders (PO)	12,186	9	14,580	16	9,122	11
Service Contracts (SC)	40,508	29	39,814	45	17,931	22
Total	\$ 138,020	100 %	\$ 88,438	100 %	\$ 82,861	100 %

GOVERNMENT OF NUNAVUT

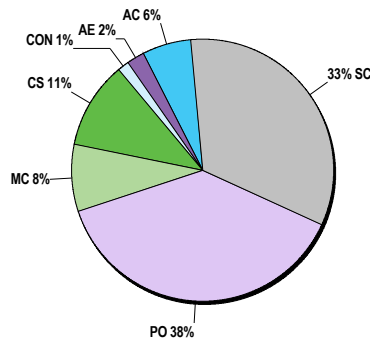

Procurement Activity Report

In 2005/06, service contracts grew significantly to represent 45% of the GN's contracting activities during the year. The majority of this spending is directly related to the provision of essential services to Nunavummiut under the Departments of Health and Social Services, Economic Development and Transportation, and Education. Such services include residential or specialized care and student housing.

The value of contracts from the year 2005/06 to 2006/07 shows a 56% increase. During the fiscal year 2005/06 there were only two (2) construction contracts over \$1 million. In 06/07 there were eight (8) contracts with a value of over \$1 million and three (3) contracts worth over \$10 million. The increase in construction accounts for a majority of the total increase in contracting value.

The chart below "*Government of Nunavut Contracting Types ~ Volume*" illustrates the distribution of contracting methodology.

**Government of Nunavut
Contracting Types - Volume
2006/07**

Each year, the majority of the GN's contracting activity by volume takes place through purchase orders followed next by service contracts, which usually represent between 22% to 30% annually.

Contracting Types ~ Volume

Type	2006/07		2005/06		2004/05	
Air Charter (AC)	64	6 %	33	3 %	39	5 %
Architectural/Engineering (AE)	23	2	33	3	10	1
Construction (CON)	15	1	14	1	15	2
Consulting services (CS)	113	11	83	8	44	6

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Minor Construction or Maintenance Services (MC)	87	8	102	10	76	10
Purchase Orders (PO)	401	38	422	43	408	54
Service Contracts (SC)	350	33	294	30	166	22
Total	1,053	100 %	981	100 %	758	100 %

In 2005/06, the number of contracts awarded by the GN increased by 30% over the previous year. In 2006/07 the volume of contracts has grown a further 7%.

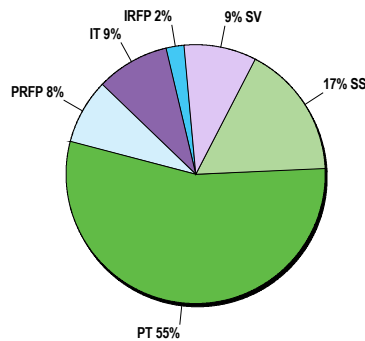

The overall 7% increase in the volume of contracts is composed largely of Air Charters, Consulting Services and Service Contracts, up 95%, 36% and 19% respectively.

In 2006/07 Purchase Orders made up 38% of the volume but only 9% of the total contracting value.

3. Contracting Methods

The chart below "Government of Nunavut Contracting Methods ~ Value" summarizes the value of contracts by Award Method.

**Government of Nunavut
Contracting Methods - Value
2006/07**

In the fiscal year 2006/07, the value of contracts publicly tendered has almost doubled since 2005/06. The value of contracts Sole Sourced is down by 25%. Of the sole source contracts issued 44% of the volume were undertaken by the Department of Health and Social Services for the purposes of obtaining essential and specialized services. With respect to the Department of Health and Social Services, this entailed specialized care for Nunavummiut as well as professional services necessary for operating health facilities.

Contracting Methods ~ Value
(Thousands)

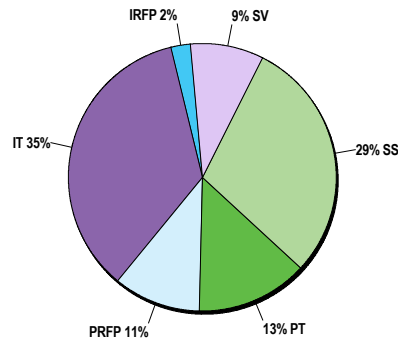

Method	2006/07		2005/06		2004/05	
Invitational RFP (IRFP)	\$ 3,125	2 %	\$ 2,513	3 %	\$ 2,269	3 %
Invitational Tender (IT)	12,624	9	15,158	17	9,436	11
Public RFP (PRFP)	11,237	8	18,335	21	13,138	16
Public Tender (PT)	75,580	55	19,337	22	48,228	59
Sole Source (SS)	23,046	17	31,683	36	8,780	11
Sole Supplier or Vendor (SV)	12,408	9	1,412	2	470	1
Total	\$ 138,020	100 %	\$ 88,438	100 %	\$ 82,321	100 %

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below *Government of Nunavut Contracting Methods ~ Volume* illustrates the distribution of contracts by award methodology.

**Government of Nunavut
Contracting Methods - Volume
2006/07**

On a volume basis, invitational tenders represent the greatest proportion of contracts awarded each year. The average contract value awarded through public offering was \$275 thousand.

Contracting Methods ~ Volume

Method	2006/07		2005/06		2004/05	
Invitational RFP (IRFP)	25	2 %	23	2 %	38	5 %
Invitational Tender (IT)	372	35	439	45	350	46
Public RFP (PRFP)	111	11	53	5	34	4
Public Tender (PT)	142	13	96	10	35	5
Sole Source (SS)	310	29	327	33	272	36
Sole Supplier or Vendor (SV)	93	9	43	4	29	4
Total	1,053	100 %	981	100 %	758	100 %

CGS has improved reporting of contracting practices over the past 3 years and has enhanced procurement services available to departments. In the 2006/07 fiscal year, the volume of publicly awarded contracts increased by 6% and the value of Sole Sourced contracts decreased by 5%. Consistent with public sector best practices and GN policy objectives, Purchasing, Logistics & Contract Support Section continues to improve monitoring and implementation measures to minimize sole sourcing. Our goal is to continue increasing goods and services acquisitions by PRFP & PT over the coming years. This objective will be achieved through continuously improving services offered to client departments, providing training opportunities to GN staff, increasing management planning services, and by sourcing suppliers and vendors diligently.

4. Sole Source Contract Distribution

As a procurement department, we strive to get the maximum value for the Government of Nunavut. This is only possible through the competitive, public bidding processes. However, there are legitimate instances where a competitive bidding processes is not possible and the situation may fall within one of the four Sole Source situations.

The Contract Regulations for the Government of Nunavut permit Sole Source contracting in any one of the following situations:

1. If the value of the good or service to be purchased is under \$5,000;
2. If the contract is for Architectural and Engineering Service worth less than \$25,000;
3. If the need is of great urgency such that any delay could be injurious to the public; or
4. Situations where only one vendor (Sole Vendor) exists, such as the purchase of power from Qulliq Energy Corporation.

Many situations fall within item 4 above. For example, situations involving patents, copyrights and or intellectual property ownership (such as educational course design and materials or course delivery such as those offered by Nunavut Arctic College) or instances such as the purchase of a particular part or piece of equipment (such as a pump repair for a fuel delivery truck or plow parts for snow clearing). These situations may not necessarily warrant a competitive processes where they are in fact 'Sole Vendor' instances.

This is not to say that a 'Sole Vendor' situation applies when purchasing many commodities. In fact, when purchasing vehicles and or other products such as photocopiers and fax machines, etc., the GN must avoid the use of brand specific names. Requests for Tenders and Proposals must always indicate that the GN will accept bids for similar or equivalent products so long as they meet the quality and functional requirements that are established in the request.

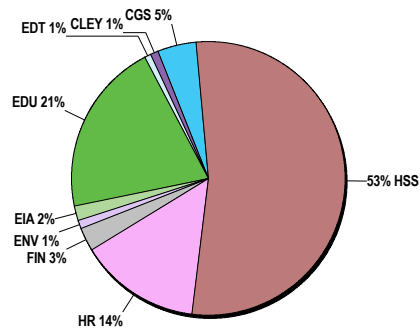

Also, in some situations it is not advisable to issue a competitive call for tenders or proposals, by invitation or advertisement. In these situations, the delay caused by the tender or RFP period would be harmful to person(s) or end users of the good or service. These are emergency situations where if the government doesn't act immediately, there will be some form of public harm or injury. For example, sections of roof have blown off a school or nursing station or other public building; contaminants are spilling into potable water, a fuel delivery truck requires repairs, etc. This is not to say that all emergencies or public harm is strictly a health and safety hazard. Indeed, many situations call for government action to improve the emotional health and well being of the public as well. These situations typically fall within item 3 above.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below "Government of Nunavut Sole Source Contract Distribution ~ Value" summarizes the distribution of contracting method by department.

**Government of Nunavut
Sole Source Contract Distribution - Value
2006/07**

It should be noted that certain functions and responsibilities that are unique to certain departments lead to a higher propensity for this contracting method. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management and potable water have been contributing factors for sole source contracts on occasion. The arctic environment and a short construction season serve to complicate project delivery and contracting options. Good planning and project management practices help to alleviate the necessity to rely on Sole Sourcing.

In 2005/06, the two departments which had the highest volume of sole source contracts (both in terms of value and volume) were the Departments of Health and Social Services and Economic Development and Transportation. Each of these departments have responsibilities for providing essential basic services which may impact the prevalence and frequency of this form of contracting method on occasion.

Note: For the fiscal year 2006/07, the Department of Economic Development and Transportation made a change to reporting practice. Many of the contracts with Hamlets represent "Sole Supplier" situations where the Hamlet was the only service provider able to service operations of Nunavut Airports. This change in reporting methodology explains the significant decrease in sole source contracts reported by EDT. Sole Vendor contracts may be reviewed in Appendix C.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Sole Source Contract Distribution ~ Value

(Thousands)

Department	2006/07		2005/06		2004/05	
Community and Government Services (CGS)	\$ 1,062	5 %	\$ 2,671	8 %	\$ 3,284	37 %
Culture, Language, Elders and Youth (CLEY)	214	1	325	1	121	1

Total	\$ 23,047	100 %	\$ 31,684	100 %	\$ 8,780	100 %

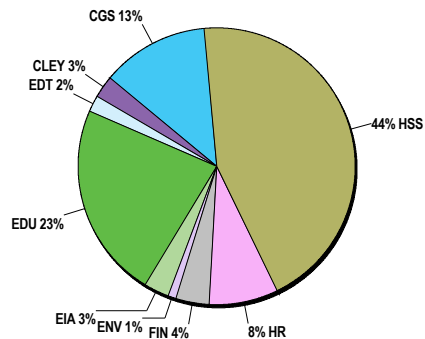

Of the \$12.3 million that the Department of Health and Social Services awarded through sole source contracts in 2006/07, just over 34% went toward securing specialized care and health services and/or residential care.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below "Government of Nunavut Sole Source Contract Distribution ~ Volume" illustrates the distribution of contracting methodology.

**Government of Nunavut
Sole Source Contract Distribution - Volume
2006/07**

On a proportionate basis, the Department of Health and Social Services issued the majority of sole source contracts, followed by Department of Education.

Sole Source Contract Distribution ~ Volume

Department	2006/07		2005/06		2004/05	
Community and Government Services (CGS)	39	13 %	65	20 %	71	26 %
Culture, Language, Elders and Youth (CLEY)	8	3	6	2	8	3
Economic Development and Transportation (EDT)	6	2	43	13	6	2
Education (EDU)	71	23	55	17	65	24
Executive and Intergovernmental Affairs (EIA)	9	3	11	3	22	8
Environment (ENV)	3	1	1	-	18	7
Finance (FIN)	12	4	22	7	5	2
Human Resources (HR)	25	8	6	2	21	8
Health and Social Services (HSS)	137	44	115	35	34	13
Justice (JUS)	-	-	3	1	22	8
Total	310	100 %	327	100 %	272	100 %

The actual number of sole source contracts issued during the *2005/06* fiscal year was consistent with the prior year, but overall decreased on a proportionate basis when considered in the context of total contract awards. This trend continues for the fiscal year *2006/07*. The three departments responsible for providing essential services, Community and Government Services, Health and Social Services and Economic Development and Transportation, engaged in the greatest number of sole source contracts during the *2005/06* fiscal year. As was mentioned previously, the department of Economic Development and Transportation has changed the manner in which it reports contracts with Hamlets for Airport services. The contracts are no longer reported as Sole Sources. For the *2006/07* fiscal year, the departments with the greatest number of sole sourced contracts are Health & Social Services, followed by Education and Community and Government Services.

Appendix A: Definition of Terms and Abbreviations

Terms

"Goods": In this report, "Goods" means contracts for the purchase of goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

"Invitation": An Invitation is a contracting method where Tender or Request for Proposal documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

"Invitational Tender": An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

"Invitational Request For Proposal": An Invitational Request For Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit proposals.

"Purchase Orders": In this report, "Purchase Orders" means contracts for purchase of goods, primarily entered into by the Department of Community and Government Services on behalf of Government of Nunavut departments.

"Public Tender": A Public Tender are those tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

"Request For Proposal": An Request For Proposal (RFP) has been defined as follows, "when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price".

"Sole Source": A Sole Source is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or

- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) the contract is any type of contract that will not exceed \$5,000 in value.

"Tender": Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
