Purpose

The Department of Community and Government Services (CGS) is pleased to present this report on the Government of Nunavut (GN)'s procurement and contracting activities for the 2007/08 fiscal year.

Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts as reported by GN departments to CGS's Procurement, Logistics and Contract Support section.

It should be noted that contracts entered into by the GN Crown agencies and Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during the 2007/2008 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the applicable GN Policies and Procedures Manual.

Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and tables are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one-time initiatives. Users of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report. Readers should consider the many other reports and published program information made available by the GN.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the annual results. For instance, a significant level of capital projects in one year would likely reveal a high level of public tendering which is the typical approach when awarding large value major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in public tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs and services. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments.

Major capital projects typically follow a period of planning which include inception, planning and design phases prior to the period of intense construction activity starting. The following year would normally show a large reduction in contracting activity. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method. A year in which there is a decline in a significant portion of capital spending which, through its size and magnitude, awarded through a request for proposal process can influence the relative proportion or comparisons by percentage from year to year. Therefore the multi-year comparative information must be considered from a broader perspective and one should consider the overall influences prior to making conclusions regarding the year to year comparisons.

It is worth noting that contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding health and welfare of Nunavummiut may warrant

GOVERNMENT OF NUNAVUT

Procurement Activity Report

special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where there is only one qualified vendor available or where a delay would be injurious to the public interest. Therefore in a year in which the level of capital spending is low, the proportion of non-competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contract Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

Sole Source Contract Observations

Sole Source contracting practices are monitored closely. The GN believes we get the best value for our money through competitive bidding process. Section 3 of this report discusses the acceptable conditions for Sole Source contracts.

The GN continues to review the contributing factors to contracts that have been Sole Sourced. We will continue to work towards reducing reliance on this contracting method. In 2007/08 Sole Source contracts, as a percentage of all contracts, increased by 2%. This growth is more prevalent in contracts with value over \$100,000.

Note: The statistical numbers in this report do not include two (2) large categories of contracts. Those are:

- | | | |
|----|----------------|----------------------|
| 1. | Medical Travel | \$35 Million (est.) |
| 2. | Fuel (PPD) | \$137 Million (est.) |

These two high value categories total over \$170 million. These expenditures are all the result of a competitive bidding process. If we include these numbers, Sole Source contracts would value less than 5% of total expenditures. Eliminating these numbers from statistical analysis allows for a more detailed and closer examination of Sole Source contracts.

Appendix A outlines of the Definition of Terms and Abbreviations.

Appendix B entitled *Sole Source Listing* provides a listing of all Sole Source Contracts by value (> \$5,000) in ascending order.

Appendix C entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the Award Value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

This detailed list does not include the value of Scheduled Medical Travel, \$35,172,567.50, awarded by the Department of Health and Social Services in 2007/08. At the request of Members of the Legislative Assembly we are providing a breakdown of dollar amounts spent with each of the carriers for non emergency medical travel:

• First Air	\$20,444,476.16
• Calm Air	\$8,504,584.93
• Kivalliq Air Division of Keewatin Air	\$3,052,344.96
• Canadian North	\$2,560,893.50
• Air Canada	\$399,756.77
• Unaalik Aviation (2004) Inc	\$32,033.12
• Adlair Aviation 1983 Ltd	\$51,427.54
• Kenn Borek Air Ltd	\$73,471.68
• Keewatin Air Limited	\$53,578.84

The following contracts were awarded during the 2007/08 fuel re-supply:

• Woodward	\$110,657,067.76
• Imperial	\$16,108,594.31
• NTCL	\$9,911,866.99
• Northern Networks	\$78,115.00
• Aaruja & Arctic	\$174,675.00
• RL Hanson	\$1,738.80
• M & T Enterprises	\$3,216.14
• Nunavut Sealink	\$113,378.44
• Iqaluit Gas Bar	\$379,536.78
• Nunavut Eastern Shipping	\$2,751.98

The Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were no contracts awarded by Executive Council for the reporting period.

General Observations

The following is a brief synopsis of the statistical analysis for the fiscal year 2007/08.

The actual **volume** of contracts (number of contracts issued) is up by 47% from 2005/06 and 37% from 2006/07.

The department with the largest **volume** of contracts is CGS followed by Health and Social Services (HSS).

Service Contracts represent the largest category (dollars spent) of all contracts (57%) followed by Major Works Construction (20%) and Purchase Orders (10%).

Service contracts and purchase orders represent the largest **volume** of contracts (76%).

The most common method of contracting by **volume** is through Public and Invitational Tenders and RFP's (59%).

52% of the total **value** of all contracts is the result of some form of competitive bidding. This represents a decrease of 22% from the fiscal year 2006/07 to 2007/08.

GOVERNMENT OF NUNAVUT

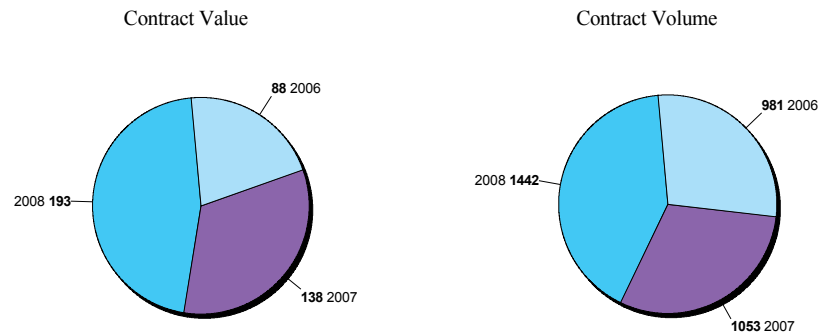

Procurement Activity Report

Summary

1. All Contracts (> \$5,000)

The chart below "*Government of Nunavut Contracting Value & Volume*" summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

Government of Nunavut Contracting Value & Volume 3 Year Comparison

The *Procurement Activity Report* has been produced for the past five fiscal years. The two charts above illustrate how the GN's contracting activities have changed over the past two years and is further supported by the details provided in the following table. In terms of contract value, the highest level of contracting activity has now occurred in 2007/08. Contracting activity value shows a 40% increase in 2007/08. In terms of volume, the number of contracts issued in 2007/08 represents a 37% increase in actual contracts since the prior year.

The table below shows that the value of the average contract has increased by \$3,000 from 2006/07 to 2007/08

All Contracts (Thousands)

Type	2007/08		2006/07		2005/06	
Number of Contracts		1,442		1,053		981
Total Value	\$	193,317	\$	138,020	\$	88,438
Avg Contract Value	\$	134	\$	131	\$	90

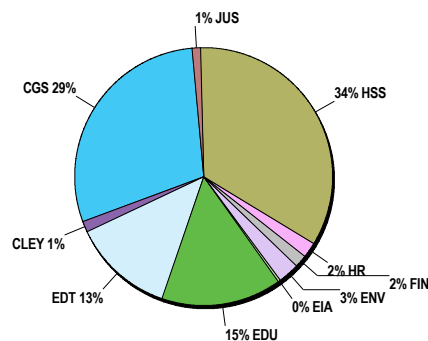

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Contracts by Department 2007/08 - Value

The chart below "*Government of Nunavut Department Distribution ~ Value*" summarizes the distribution of contracts by department.

Government of Nunavut Department Distribution - Value 2007/08

The chart above shows the level of contract activities each department engaged in during the 2007/08 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure, health, education and emergency services engaged in higher levels of contract activities. Together, HSS, CGS & EDU represent 78% of contract dollars expended in 07/08, while HSS, CGS & EDU experienced the highest volumes of contracting activities (62%). Specialized goods and services are often needed in order to address the needs of Nunavummiut, fulfill departmental mandates and meet client service expectations and needs.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Total Contract Distribution by Department ~ Value (Thousands)

Department	2007/08		2006/07		2005/06	
Community and Government Services (CGS)	\$	56,598 29 %	\$	38,477 28 %	\$	33,694 38 %
Culture, Language, Elders and Youth (CLEY)		2,618 1		1,227 1		1,284 1
Economic Development and Transportation (EDT)		24,633 13		46,334 34		14,100 16
Education (EDU)		29,139 15		15,183 11		14,560 16
Executive and Intergovernmental Affairs (EIA)		599 -		553 -		449 1
Environment (ENV)		5,163 3		2,345 2		1,807 2
Finance (FIN)		3,057 2		1,430 1		1,090 1
Human Resources (HR)		3,656 2		4,517 3		1,013 1
Health and Social Services (HSS)		65,924 34		26,878 19		19,128 22
Justice (JUS)		1,930 1		1,076 1		1,313 1
Total	\$	193,317 100 %	\$	138,020 100 %	\$	88,438 100 %

In terms of annual comparisons, the Department of Economic Development and Transportation experienced an increase in contracting activities in 2006/07 compared to 2005/06, related primarily to maintaining and upgrading Airport infrastructure. The 2007/08 levels of spending show a decrease to more normal expenditure levels.

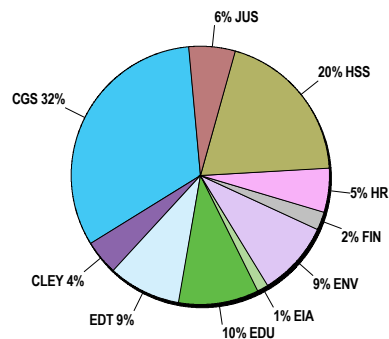

The Department of Health and Social Services saw a large increase in expenditures in 07/08. This increase is primarily due to a \$30 million dollar medevac contract reported for the Baffin Region.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below "*Government of Nunavut Department Distribution ~ Volume*" illustrates the distribution of contracts by department.

**Government of Nunavut
Department Distribution - Volume
2007/08**

The Departments of Community and Government Services and Health and Social Services represent the highest level of contracting activity attributable to the specialized goods and services they require to meet the needs of Nunavummiut.

**Total Contract Distribution by Department ~
Volume**

Department	2007/08		2006/07		2005/06	
Community and Government Services (CGS)	468	32 %	379	36 %	376	38 %
Culture, Language, Elders and Youth (CLEY)	63	4	40	4	22	2

GOVERNMENT OF NUNAVUT

Procurement Activity Report

2. Contracting Types

The chart below "Government of Nunavut Contracting Value & Volume" summarizes the distribution of contracting method by value.

**Government of Nunavut
Contracting Types - Value
2007/08**

When compared to 05/06 the GN's contracting activities by value increased by approximately \$50 million or 56% in 2006/07 and by \$55 million in 2007/08 or 40%.

Comparative assessments must include context and consideration of large multi-year contract awards. In 2007/08, the medevac services contract was awarded.

Contracting Types ~ Value (Thousands)

Type	2007/08		2006/07		2005/06	
Air Charter (AC)	\$	6,021 3 %	\$	1,916 1 %	\$	1,275 1 %
Architectural/Engineering (AE)		4,866 3		3,697 3		7,664 9
Construction (CON)		37,914 20		67,055 49		14,871 17
Consulting services (CS)		6,928 4		6,335 5		3,335 4
Minor Construction or Maintenance Services (MC)		7,405 4		6,323 5		6,899 8
Purchase Orders (PO)		19,992 10		12,186 9		14,580 16
Service Contracts (SC)		110,191 57		40,508 29		39,814 45
Total	\$	193,317 100 %	\$	138,020 100 %	\$	88,438 100 %

In 2007/08, service contracts grew significantly to represent 44% of the GN's contracting volume during the year. The majority of this spending is directly related to the provision of essential services to Nunavummiut under the Departments of Health and Social Services, Economic Development and Transportation, and Education. Such services include residential or specialized care and student housing.

Service Contracts include consultant services such as IT analysts, engineers and managers. Also, some maintenance contracts are also reported as service contracts.

The value of contracts from the year 2005/06 to 2006/07 showed a 56% increase. During the fiscal year 2005/06 there were only two (2) construction contracts over \$1 million. In 06/07 there were eight (8) contracts with a value of over \$1 million and three (3) contracts worth over \$10 million. The increase in construction accounts for a majority of the total increase in contracting value.

The value of contracts from the year 2006/07 to 2007/08 shows a 40% increase. This increase is largely in the area of Service Contracts.

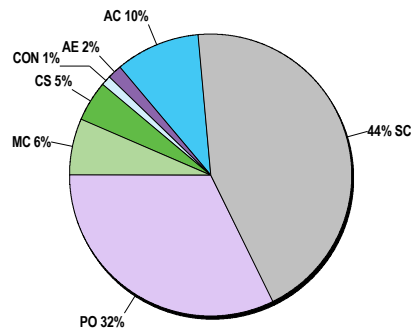

For the 2007/08 year, Service Contracts include medevac Services for the Baffin Region. This multi-year \$30 Million contract is included in the report for the full value of the services in the award (as all multi-year contracts are reported). If this award is excluded, the value of SCs becomes \$80,191,138 or 49%; up only 5% from last year.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below "*Government of Nunavut Contracting Types ~ Volume*" illustrates the distribution of contracting methodology.

**Government of Nunavut
Contracting Types - Volume
2007/08**

Contracting Types ~ Volume

Type	2007/08		2006/07		2005/06	
Air Charter (AC)	140	10 %	64	6 %	33	3 %
Architectural/Engineering (AE)	24	2	23	2	33	3
Construction (CON)	16	1	15	1	14	1
Consulting services (CS)	67	5	113	11	83	8
Minor Construction or Maintenance Services (MC)	93	6	87	8	102	10
Purchase Orders (PO)	466	32	401	38	422	43
Service Contracts (SC)	636	44	350	33	294	30
Total	1,442	100 %	1,053	100 %	981	100 %

Air Charters have increased significantly (118%) due in large part to inter-community sports, wildlife & environmental studies and emergency fuel re-supply.

In 2005/06, the number of contracts awarded by the GN increased by 30% over the previous year. In 2006/07 the volume of contracts has grown a further 7%. From 2006/07 to 2007/08 the volume of contracts has increased by 37%.

The use of service contracts also shows a similar increase in volume (81%) however the percentage increase in value is roughly 272% over the year.

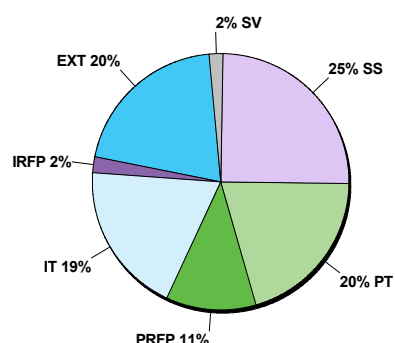

GOVERNMENT OF NUNAVUT

Procurement Activity Report

3. Contracting Methods

The chart below "Government of Nunavut Contracting Methods ~ Value" summarizes the distribution of contracting method by value.

**Government of Nunavut
Contracting Methods - Value
2007/08**

Competitive Tenders and proposals continue to represent the most significant contracting method employed by the GN. For the past three years, the method of Sole Source shows an overall decrease however, further efforts to improve these ratios are required.

As in most jurisdictions, the awarding of contracts on a non-competitive basis is understandably limited to specific situations and otherwise must be appropriately justified. In 2006/07, the GN's awarding of contracts under sole source and sole vendor arrangements actually decreased from the prior year. The year 2007/08 shows that the combined percentage of Sole Source and Sole Vendor contracts has remained largely unchanged over the previous year however down considerably since 2005/6.

Contracting Methods ~ Value (Thousands)

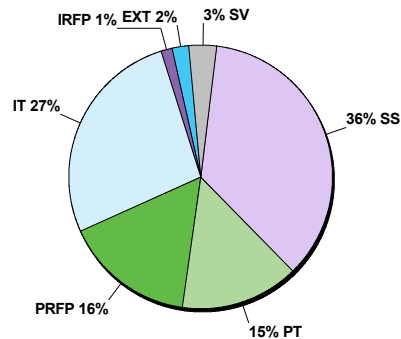

Method	2007/08		2006/07		2005/06	
Extensions (EXT)	\$	39,560 20 %	\$	- - %	\$	- - %
Invitational RFP (IRFP)		3,929 2		3,125 2		2,513 3
Invitational Tender (IT)		37,175 19		12,624 9		15,158 17
Public RFP (PRFP)		21,911 11		11,237 8		18,335 21
Public Tender (PT)		39,310 20		75,580 55		19,337 22
Sole Source (SS)		48,136 25		23,046 17		31,683 36
Sole Supplier or Vendor (SV)		3,296 2		12,408 9		1,412 2
Total	\$	193,317 100 %	\$	138,020 100 %	\$	88,438 100 %

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below *Government of Nunavut Contracting Methods ~ Volume* illustrates the distribution of contracting methodology.

**Government of Nunavut
Contracting Methods - Volume
2007/08**

Contracting Methods ~ Volume

Method	2007/08		2006/07		2005/06	
Extensions (EXT)	30	2 %	-	- %	-	- %
Invitational RFP (IRFP)	20	1	25	2	23	2
Invitational Tender (IT)	388	27	372	35	439	45
Public RFP (PRFP)	231	16	111	11	53	5
Public Tender (PT)	210	15	142	13	96	10
Sole Source (SS)	515	36	310	29	327	33
Sole Supplier or Vendor (SV)	48	3	93	9	43	4
Total	1,442	100 %	1,053	100 %	981	100 %

On a proportionate basis, competitive procurement processes remain, consistently the most common method of contracting, 61% for the past two years and 62% for 05/06. The volume of contracts formed from non competitive processes however continues to grow. As the overall volume of contracts grows, the Sole Source method continues to keep pace. For the past three years the combined Sole Source/Sole Vendor volumes have increased by 1% each year. The Sole Source methods are of most concern (Sole vendors will always exist). Senior Managers and Directors need to be more conscious of this unacceptable pattern. GN Procurement Guidelines as well as the FAA (Financial Administration Act) clearly define the acceptable conditions for Sole Sourcing. Sole Sourcing is a tool for dealing with emergency situations and public safety.

On occasion Sole Sourcing as a contracting method is used out of operational convenience and/or due to a general lack of planning. A conscious effort must be made to reverse this trend.

The next section of this report will show that there are Sole Sourcing trend issues with all of the departments that are responsible for program delivery directly to Nunavummiut. These Departments include:

- Health and Social Services
- Education
- Community and Government Services
- Economic Development and Transportation
- Environment

4. Sole Source Contract Distribution

As a procurement department, we strive to get the maximum value for the Government of Nunavut. This is only possible through the competitive, public bidding processes. However, there are legitimate instances where a competitive bidding processes is not possible and the situation may fall within one of the four Sole Source situations.

The Contract Regulations for the Government of Nunavut permit Sole Source contracting in any one of the following situations:

1. If the value of the good or service to be purchased is under \$5,000;
2. If the contract is for Architectural and Engineering Service worth less than \$25,000;
3. If the need is of great urgency such that any delay could be injurious to the public; or
4. Situations where only one vendor (Sole Vendor) exists, such as the purchase of power from Qulliq Energy Corporation.

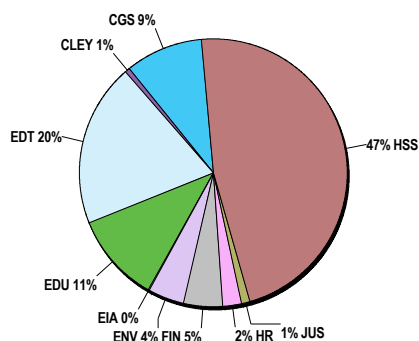

Many situations fall within item 4 above. For example, situations involving patents, copyrights and or intellectual property ownership (such as educational course design and materials or course delivery such as those offered by Nunavut Arctic College) or instances such as the purchase of a particular part or piece of equipment (such as a pump repair for a fuel delivery truck or plow parts for snow clearing). These situations may not necessarily warrant a competitive processes where they are in fact 'Sole Vendor' instances.

This is not to say that a 'Sole Vendor' situation applies when purchasing many commodities. In fact, when purchasing vehicles and or other products such as photocopiers and fax machines, etc., the GN must avoid the use of brand specific names. Requests for Tenders and Proposals must always indicate that the GN will accept bids for similar or equivalent products so long as they meet the quality and functional requirements that are established in the request.

Also, in some situations it is not advisable to issue a competitive call for tenders or proposals, by invitation or advertisement. In these situations, the delay caused by the tender or RFP period would be harmful to person(s) or end users of the good or service. These are emergency situations where if the government doesn't act immediately, there will be some form of public harm or injury. For example, sections of a roof have blown off a school or nursing station or other public building; contaminants are spilling into potable water, a fuel delivery truck requires repairs, etc. This is not to say that all emergencies or public harm is strictly a health and safety hazard. Indeed, many situations call for government action to improve the emotional health and well being of the public as well. These situations typically fall within item 3 above.

The chart below "*Government of Nunavut Sole Source Contract Distribution ~ Value*" summarizes the distribution of contracting method by department.

**Government of Nunavut
Sole Source Contract Distribution - Value
2007/08**

It should be noted that certain functions and responsibilities that are unique to certain departments lead to a higher propensity for this contracting method. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management and potable water have been contributing factors for sole source contracts on occasion. The arctic environment and a short construction season serve to complicate project delivery and contracting options. Good planning and project management practices help to alleviate the necessity to rely on Sole Sourcing.

In 2007/08, the two departments which had the highest value of sole source contracts were the Departments of Health and Social Services and Economic Development and Transportation. Each of these departments have responsibilities for providing essential basic services which may impact the prevalence and frequency of this form of contracting method on occasion.

Note: For the fiscal year 2006/07, the Department of Economic Development and Transportation made a change to reporting practice. Many of the contracts with Hamlets represent "Sole Supplier" situations where the Hamlet was the only service provider able to service operations of Nunavut Airports. This change in reporting methodology explains the significant decrease in sole source contracts reported by EDT. Sole Vendor contracts may be reviewed in Appendix C.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

Sole Source Contract Distribution ~ Value

(Thousands)

Department	2007/08		2006/07		2005/06	
Community and Government Services (CGS)	\$	4,525	9 %	\$	1,062	5 %
Culture, Language, Elders and Youth (CLEY)		293	1		214	1
Economic Development and Transportation (EDT)		9,486	20		173	1
Education (EDU)		5,205	11		4,744	21
Executive and Intergovernmental Affairs (EIA)		14	-		397	2
Environment (ENV)		2,101	4		231	1

Health and Social Services (HSS)		22,673	47		12,289	53
Total	\$	48,135	100 %	\$	23,047	100 %

In 2006/07, of the \$12.3 million that the Department of Health and Social Services awarded through sole source contracts, just over 34% went toward securing specialized care and health services and/or residential care.

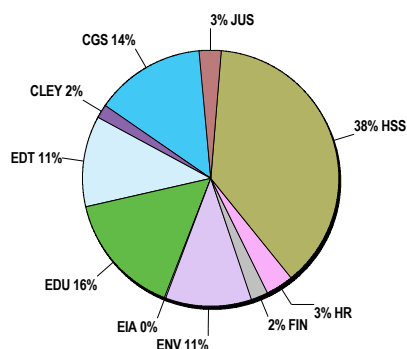

In 2007/08, 41% of the number of Sole Source contracts and 50% (over \$11 million) of the value of Sole Source contracts went toward providing specialized care and health services and/or residential care.

GOVERNMENT OF NUNAVUT

Procurement Activity Report

The chart below "Government of Nunavut Sole Source Contract Distribution ~ Volume" illustrates the distribution of contracting methodology.

**Government of Nunavut
Sole Source Contract Distribution - Volume
2007/08**

On a proportionate basis, the Department of Health and Social Services issued the largest number of sole source contracts, followed by the Department of Education.

Sole Source Contract Distribution ~ Volume

Department	2007/08		2006/07		2005/06

GN Departments need to continue to work toward reducing reliance on Sole Source contracts. The GN believes that best value is received for public dollars through open, fair and transparent competitive procurement processes.

Appendix A:

Definition of Terms and Abbreviations

Terms

"Goods": In this report, "Goods" means contracts for the purchase of goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

"Invitation": An Invitation is a contracting method where Tender or Request for Proposal documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

"Invitational Tender": An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

"Invitational Request For Proposal": An Invitational Request For Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit proposals.

"Purchase Orders": In this report, "Purchase Orders" means contracts for purchase of goods, primarily entered into by the Department of Community and Government Services on behalf of Government of Nunavut departments.

"Public Tender": A Public Tender are those tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

"Request For Proposal": An Request For Proposal (RFP) has been defined as follows, "when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price".

"Sole Source": A Sole Source is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or

- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) the contract is any type of contract that will not exceed \$5,000 in value.

"Tender": Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.

Abbreviations Defined

Departments

CGS	Community & Government Services
CLEY	Culture, Language, Elders & Youth
EDT	Economic Development & Transportation
EDU	Education
EIA	Executive & Intergovernmental Affairs
ENV	Environment
FIN	Finance
HR	Human Resources
HSS	Health & Social Services
JUS	Justice

Contracting Types

AC	Air Charter
AE	Architectural/Engineering
CON	Construction
CS	Consulting Services
MC	Minor Construction or Maintenance
PO	Purchase Orders
SC	Service Contracts

Contracting Methods

IRFP	Invitational Request For Proposals
IT	Invitational Tender
SS	Sole Source
PRFP	Public Request For Proposals
PT	Public Tender
SV	Sole Supplier or Vendor
